

CEREC® KIT

Digital Dental Academy

Universal system solution for your CAD/CAM restorations

We are able to present you with another MEISINGER highlight in the form of our new CEREC® Kit, developed in cooperation with international trainers at the Digital Dental Academy. This set lets you experience significant simplification and time-saving in your daily work. The attractive feature of the CEREC® Kit is its logical structure that guides you through your whole work procedure: Excavation – Preparation – Polish. Along with the most important instruments for the precise preparation of inlays, onlays, partial crowns and crowns, the kit also includes the outstanding MEISINGER crown separators HM7RX for metals and Z838L for zircon. The high-quality diamond polishers for a flawless finish complete the contents.

At a glance

- Well-planned arrangement of instruments from preparation to high polish
- Precise preparation of inlays, onlays, partial crowns and crowns
- Perfect completion thanks to brilliant surface finish

Our sales force would be pleased to answer your questions: +49 2131 2012-303
