

# LUSTER<sup>®</sup> Paste

## High-gloss on your ceramic restorations

The MEISINGER LUSTER<sup>®</sup> paste is a 1-step diamond polishing paste and is used for high-gloss polishing of dental ceramic materials. The high-quality LUSTER<sup>®</sup> paste contains natural diamond particles with a grain size of 8 - 12  $\mu\text{m}$  (fine) and 16 - 18  $\mu\text{m}$  (medium). The paste gives perfect high gloss to all ceramic restorations and is suitable for both extraoral and intraoral polishing. This simplifies the polishing of occlusal surfaces and the maintenance of existing restorations.

Made in  
Germany

### At a glance

- Effective polishing thanks to natural diamond particles
- Perfect high gloss results on all ceramic restorations
- Suitable also for intraoral application
- Economical dosage
