today  
**349,- €**  
incl. overnight stay with full board

The camp registration  
you will find on the  
last page!

## YOUNG DENTAL EXPERTS WinterCamp for students and assistants

You are a student in your clinical semesters or already a medical assistant? Would you like to gain more practical insights into dental implantology? Are you also into sports activities in a breathtaking mountain landscape? Then let's explore Austria together! Not far from the holiday destination of Saalbach/Hinterglemm and Zell am See, we will meet on one of the dates shown above at 14:00 o'clock for four exciting days full of trendsetting lectures and plenty of skill-labs dealing with dental implantology. Numerous speakers under the academic supervision of PD Dr. Dr. Florian Bauer, established oral and maxillofacial surgeon from Miesbach, are waiting for you!

You can look forward to the following topics:

- The digital workflow
- Gentle extraction of root remnants (model)
- Important suturing and cutting techniques (pig's ear)
- Bone spreading and bone condensing (calf rib)
- Sinus lift by modern piezo technology and by classic round diamond bur (egg shell)
- Application of bone grafting materials and fixing of membranes (calf rib/model)
- Water hygiene in the dental practice
- Surgical principles and foundations of dental implantology
- Transfer and augmentation of bone (calf rib)
- Conventional vs. digital implant impression with intraoral scanners
- Implantation with different implant systems (calf rib)

As always, the event takes place in the **hotel „Gasthof zur Post“** in Maishofen. You are accommodated in rooms of two or three in the hotel itself or in apartments, rooms and flats in walking distance of the event-location. You get a full board, including breakfast, lunch and dinner, as well as many drinks, for just 349,- €! You only have to arrange your trip to the event and your journey back home. If you have a request concerning the room assignment you can let us know and we will try to comply with your wish.

### On top of that, you shouldn't miss out on the additional fun!

Do you fancy a beginner's ski course or would you like to explore the Europasport region on your own as an experienced skier? A cosy get-together appeals to you just as much? Then you've come to the right place! Take your chance and finally put some colour into grey theory! Gain valuable practical experience in dental implantology! Deepen your knowledge and learn important techniques and processes for a successful future in the exciting field of implantology!

Maximum number of participants: 72 people  
Workshop size: 8 persons
